CHAS. HANSEN OF FRANKFORT, DIES AT HOME

Charles Hansen, of Frankfort, passed away in his home January 7, following a brief illness. He would have been 80 years old the following day, January 8.

Mr. Hansen was born in New Lenox township January 8, 1873 in a farm home on what is now Route 30, and when a young lad moved with his parents to a farm in Plainfield. On April 3, 1907, he was united in marriage to Miss Ida Kinyry, of Mokena. The couple set up housekeeping on the Plainfield farm where they lived for 33 years.

When they retired in 1940 they moved to Frankfort where they bought a home on Nebraska street, where they have lived ever since. For a number of years his wife has been an invalid, confined to bed, and throughout all this period Mr. Hansen was devoted to her. Taken suddenly ill a week before Christmas, he was removed to Silver Cross hospital for treatment and then returned home, where he died.

Correction

In the last issue of the News-Bulletin it was stated that the death in Korea of Cpl. Highley of Lincoln Estates was the first casualty Lincoln Estates has had, either from World War II or the Korean war. This was in error. While Cpl. Highley was the only Lincoln Estates casualty of the Korean war thus far, John Russell Hendrickson of Lincoln Estates was killed in World War II. He was the son of Alfred G. Hendrickson.

Open House for New Chevies Draws Big Crowds in Frankfort

Open house for the new 1953 Chevies which was held by Frankfort Motor and Equipment Co. last Friday and Saturday proved to be the most largely attended open house they have ever held. Nearly 600 people visited the showrooms during the two-day celebration.

The reaction from it was that the 1953 Chevrolet was the best accepted of any of the model. General Motors has ever put out. Displayed on the floor were four different 1953 models; a Fordor sedan, a tudor sedan, a coupe and a truck.

Refreshments were served. The ladies were presented with a Stradivari satchet by Prince Matchabelli and the men received a cigar. The kiddies were made happy with balloons etc.

The proprietors, Walter Haas and Fred Heusner, were highly gratified over the splendid reception accorded the new Chevrolet and the response to their open house invitation. Each year they hold open house but this year's eclipsed them all.

Lincoln-Way School Name Given Dist. 210

"The Lincoln-Way School" has been designated as the official name of the proposed school building for Community High School District 210. The name was chosen by the board of 210 and has as its source the fact that the school will be located on the Lincoln Highway between New Lenox and Mokena. It is expected that ground will be broken for the structure this spring.

Through the invitation of Governor Stratton the Joliet Township high school band will have the honor of participating in the inauguration parade for General Eisenhower the day he becomes President of the United States, Tuesday, January 20. The invitation was accepted after community leaders said they would support a campaign for funds to send the high school youths on to Washington. This is an outstanding honor for JTHS inasmuch as each state is allowed only one band on unit and a float for the inaugural parade.

The boys will leave the high school in Joliet Monday, January 19, at 10:30 a.m. by chartered Kankakee Valley buses bound for the Englewood station of the Pennsylvania railroad. At 12:15 p.m. they will board the Manhattan Limited, occupying two special coaches and a diner. They will arrive in Washington at 7:35 a.m. Tuesday morning, and will then go to the New York avenue Presbyterian church to add finishing touches to their appearance and give one last hard rub on their shiny instruments. The church will also serve them a lunch, and at one o'clock the band will report at its parade position. From 1 to 5 the boys will march on Washington streets, but the long anticipated thriller will be when they pass the reviewing stand and salute the President of the United States. The band will play from memory. They have been practicing for special flourishes as they pass the President and his new cabinet.

The boys have been practicing three periods a day for this great event, under the direction of Director Bruce Houseknecht and Assistant Director Peter Labella, who have been working as hard as the boys.

In the band from New Lenox are Ronald Chismore, Gordon Ekedahl, Glenn Ruthenbeck, Teddy and Paul Schuhe, and James and Bill Hammond. From Mokena is James Cooper, son of Mr. and Mrs. Everett Cooper, and from Frankfort is Jay Massey, son of Mr. and Mrs. Ted Massey. Mr. Massey is vice president of the JTHS band parent association.

On this trip will be nine adults as sponsors. Mr. Massey is going as a sponsor and Mrs. Massey will accompany them. The boys will have an opportunity on the train, while on the way, to brush up on some of their studies and on their music as well.

It is costing about \$9,000 to send the JTHS band to Washington on this eventful trip, and the Joliet chamber of commerce and other public relation committees are endeavoring to raise the required amount of money. This Saturday they will have a bell-ringing campaign on the streets of Joliet in an effort to complete the fund for this inauguration trip.

Inasmuch as all hotel accommodations in Washington have been exhausted months ago for this occasion, the band will be housed in New York. They will finish their parade at five o'clock in Washington on Tuesday, Jan. 20. Two hours later they will leave for New York, arriving at midnight, and will remain for a sight seeing trip until Thursday evening at 7 p.m. While in New York they will stop at the Henry Hudson hotel. They will visit upper and lower New York, Radio City, the Statue of Liberty, the Bowery, Rockefeller Center, the Empire State building and other famous places. They expect to arrive home in Joliet at 12 noon Friday, the 20th, on a Rock Island train, after having made a 2,100 mile trip, all expense paid. Upon arriving in Joliet they will have a two-hour rest and an opportunity to visit their parents. They will then report back at the high school at 2:30 to register for the new semester of classes.

For Ford's new Miracle Ride actually seems to lay a carpet of smoothness even over the roughest roads. There's no bounce, pitch and sway to bother you, no uncomfortable roll on curves. Ford's new Miracle Ride marks a new era of riding comfort and quiet. It's another big reason why Ford is worth more when you buy it... worth more when you sell it!

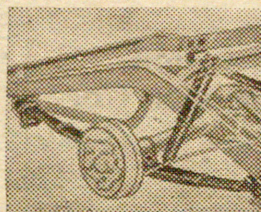

White sidewall tires optional at extra cost. Equipment, accessories and trim subject to change without notice.

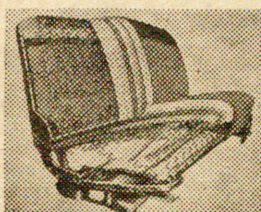

The New Standard of the American Road

Automatic Ride Control! Ford's Variable-Rate rear spring suspension actually makes the effective spring "stiffer" vary automatically as road and load conditions change. You get a smooth, comfortable ride on boulevard or roughest back road.

All day comfort! Scientifically designed contour seats, both front and rear, have thick foam rubber cushions. Non-sag spring construction is firm yet resilient. Automatic Posture Control provides the most convenient seating position for all drivers.

You've got to Value Check this new Ford's 41 "Worth More" features to know why Ford is worth more when you buy it...worth more when you sell it!

In this new '53 Ford you'll find not only a new concept of riding and driving comfort... you'll find more of the things you want and need than in any other car in the low-price field.

You'll find the "Go" you need, in Ford's high-compression V-8 and Six engines (both thrive on regular gas). You'll find the all-round visibility... the easy handling, braking and parking for today's traffic. And you'll appreciate beauty that "belongs," wherever you may drive. No wonder Ford is the New Standard of the American Road.

Washington Week

By Noah M. Mason

This letter starts the sixteenth year of our weekly reports to our people. In these reports we express our attitudes and convictions upon legislative problems that are to come before the Congress. We do not expect our readers to always agree with us, but we believe our people are entitled to know where we stand upon legislative matters—hence these letters.

Your Congressman and You—

When a Congressman is elect-

ed he becomes the representative of his people—all the people of his district—regardless of party affiliation. Your Congressman is therefore not the representative of any one political party, not the representative of labor or capital, not the representative of the farmer or the city dweller, he is the representative of all the people of his district regardless of how they vote. For that reason, if he is sincere and conscientious, he wants to know what his people think about national problems and he welcomes the opportunity to tell them what he thinks.

Your Congressman therefore invites—yes, urges you—to express your thoughts and wishes in connection with national problems, and he promises in return to be equally frank in expressing his ideas and convictions upon the same problems. Your Congressman is your man.

All Federal taxes, whether income taxes, excise taxes, or hidden taxes, are authorized and approved by Congress. Your Congressman either votes for them or against them. Federal officials from the President on down cannot spend one thin dime unless authorized by the majority of the 435 House Members and a majority of the 96 Senators. The \$90 billion that will be spent this year—all of it your money—was authorized and approved by the Congress. So if you have a kick coming register it with your Congressman. He is your man.

The Words of a Statesman—

Edmund Burke, a brilliant British statesman of the 18th century, laid down a political principle that should be followed by present-day American statesmen. Burke's words are as follows:

"Certainly, gentlemen, it ought to be the happiness and glory of a Representative to live in the strictest union, and the closest correspondence, and the most unreserved communication with his constituents. Their wishes ought to have great weight with him; their opinions high respect; their business unremitting attention. It is his duty to sacrifice his repose, his pleasure, his satisfactions, to theirs—and above all, ever, and in all cases,

es, to prefer their interest to his own.

"But a Representative's unbiased opinion, his mature judgment, his enlightened conscience, he ought not to sacrifice to any man, or to any set of men living. These he does not derive from your pleasure—no, nor from the law and the Constitution. They are a trust from providence, for the abuse of which he is deeply answerable. Your Representative owes you, not his industry only, but his judgment; and he betrays, instead of serving you, if he sacrifices it to your opinion."

Only a real statesman could give utterance to such wisdom. Only real statesmen have the courage to follow Edmund Burke's political counsel.

Notice—Your Congressman has been given a new office, more desirable and more spacious than his old one. It is adjacent to the Ways and Means Committee Clerk's office, and to the Committee auditorium where all public hearings on tax matters are held. For that reason the location of the new office is more convenient in connection with his Committee work than his old office.

The address at the new office is: Room 1103, New House Office Building, Washington 25, D. C.

WD or CA Tractor and Temple-TON Hydraulic Helper

Buy an Allis-Chalmers Model WD or CA Tractor now and do your tough winter chores with tractor power and the new Temple-TON Hydraulic Helper.

Using the tractor's own hydraulic system, the Hydraulic Helper lets tractor power do back-breaking jobs like loading manure, shoveling snow, grading and filling. Heavy-duty hydraulic cylinders lift the load—up to a ton at a time—with a steady pulling action.

Notice how the push beams run in a straight line from the bucket to the tractor's rear axle. There's plenty of strength in these heavy steel channel beams... even for the toughest jobs.

Mountain; Valley

Lesson for January 18, 1953

GENERAL Braxton Bragg was a hard-working brainy officer; but there was one thing he would not do. He would not climb a mountain to look for himself. One of the generals in his command, Nathan Bedford Forrest, had been up. From the summit of Lookout Mountain, Forrest could see with his own eyes what was going on, he could see the enemy's movements and what it would take to stop them. He pleaded with General Bragg to come and look too; but in vain. General Bragg was too busy; and so he missed an opportunity that never came again.

The Rhythm of Life

A Sunday school superintendent used to boast that he had never missed a single Sunday in close to 40 years. An observer remarked that it might have been a good idea for him to miss a few Sundays, to take some time off to visit other schools and see how they did it. It is possible to keep your nose so close to the grindstone that you can't really see what you are doing. It is possible "not to see the forest for the trees." To put it in another way: Life has a rhythm of mountain and valley. In life we have to do two things: get up now and again on a mountain where we can see high and far; and also to walk in the valley where we cannot see beyond the next bend in the dusty road.

To put it in still plainer words: Most of our life consists of everyday duties, of ordinary days, with their problems, discouragements, weariness and difficulties. But in rare moments we "get a lift" as we say, when we can rise above the petty round of the usual routine and somehow see life, its meaning and direction, as we never did before. The mountain-top experience we may call the best of life; but the valley is the most of life. The good life will have both mountain and valley.

These high moments are rare but important. We read of one of the most memorable of these in the familiar story of the Transfiguration, and what followed it. There was the great vision on Mt. Hermon's snows; and there was the tough situation down in the valley. Tough situations were common; that vision came only once. It is the way of life always. Paul's vision on the Damascus road did not last long, yet it controlled and inspired his whole life afterwards. Moses saw but one burning bush; yet that day's vision drove him through many a year of toil and trouble. It is the high moments that give power to the low days.

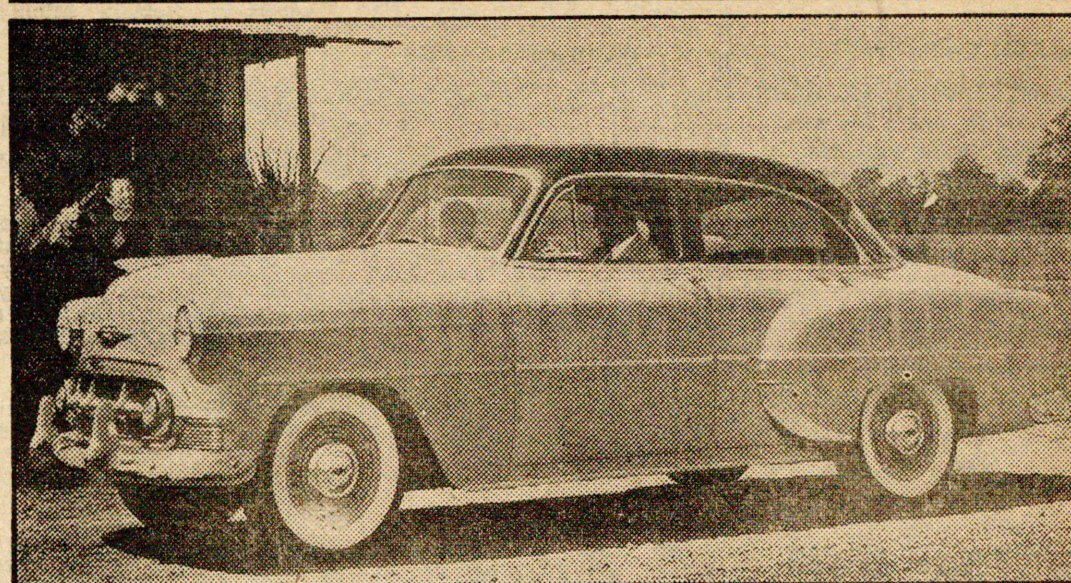

Vision and Service

Life cannot be all vision, yet it should not be all service. Or as we should rather say, the vision is for the sake of the service, and the service translates the vision into action. Vision illumines service; service obeys vision. High moments come to us in various ways. We have our high moments of faith, when doubt drops away and we rise to a certainty that never quite leaves us again. We have high moments of hope, when the distant dream comes over the horizon toward us and we see the "alabaster cities gleam" as if they were across the street; and high moments of love, so certain, so profound, that ever after, under all the trivial and troubling currents of everyday necessity the deeper love flows steady, ever sure.

Trust Your Best Moods
Life has two temptations here. One is to make the mountain's vision last without ceasing. We do not want the glory to vanish in the cloud. But this is a temptation. Not even heaven is like that. There will be vision in heaven, more glorious than any here; but there will be service too, and more faithful than any here. If there are any beings whom God has destined for vision only, and not for service, they are angels, not men.

The opposite temptation is to stick to our work, never looking up to see the stars; plodding in the valley, too busy to climb the hills. Suppose the disciples had been too busy to go up to the mountain top with Jesus? Trust your best moods. They do not deceive you, if they come in his company. Down in the valley, in the tough situation, they may seem to have been only dreams; but they are not.

Increased Performance in New Chevrolets

The low, sweeping lines of the 1953 Chevrolets are exemplified by this four-door sedan in the "Two-Ten" series, which this year offers increased performance, comfort and convenience in addition to a complete re-design. Apparent in

this view are the enlarged front and rear vision, new fender and hood contours and a fresh grille treatment that enhance the rugged beauty of the cars. Four-door sedans are also available in the "One-Fifty" and the new Bel Air series.

Homewood Resid'nts Back From Miss. Fishing Trip

(CNS) Two Homewood residents have just returned from a king sized fishing trip, with thousands of fishes to bear out their fish tales.

They are Loren P. Woods, 2452 Maple road, curator of fishes, and Robert F. Inger, 18229 Riegel Road, assistant curator of fishes, at Chicago Natural History Museum.

The two spent most of December in the Gulf of Mexico aboard the United States Fish and Wildlife service's motor-vessel "Oregon", which was surveying new shrimp grounds and investigating new sources of bait for tuna, of importance to American fisheries.

Large scale fishing devices

were made available since the trip was in the interests of science and industry.

Huge trawling nets were dropped to depths as low as 200 fathoms, bringing up a ton of "scrap" fishes for every 100 to 200 pounds of shrimp in each load.

The scrap yielded about 4,000 specimens, representing almost 200 species of fish desired by the museum to round out its research collection of Gulf fish. It also enabled the curators to map in greater detail the distribution of many Gulf species.

Several of the species trawled up on the trip are entirely new to science.

Bad weather was one of the factors which delayed sailing

from Pascagoula, Miss., until Dec. 9. Once out, six days of gales were met during 16 days at sea. However, heavy seas did not interfere too much with fishing operations. And Woods credits the productive catch of surface fish to the stormy conditions. (Fishes rise toward the surface after storms because they are hungry.)

Names Elton Pyle New Chief Jailer
Sheriff Roy Doerfler has announced that Elton Pyle, of New Lenox, who has been chief deputy sheriff for the past two years, has taken over the duties of chief jailer. Recent difficulties at the jail accounted for the change, prisoners indicted by the grand jury having attempted to break out five times in recent weeks.

Mr. Pyle was at one time guard at Stateville prison, and is well qualified for the work in view of his handling of men in penal institutions, according to Mr. Doerfler.

MARCH OF DIMES
QUOTAS GIVEN
TO LOCAL AREAS

The following chairmen and quotas for the March of Dimes campaign in the following villages and area are:

Miss Viola Lankenau, Frankfort, \$600.
Mrs. Albert Cappel, Mokena \$485.00.
Mrs. George Novak and Mrs. Joseph Novak, New Lenox, \$315.

These chairmen and their committee workers are putting forth all efforts to fill their quotas. Little Susan Novak, who became a victim of this dread disease eight months ago, and

who has been a patient in Silver Cross hospital since, is now being fitted with braces. Her parents hope for her return home in the not too far future

Named Executor Of Father's Estate

(CNS) Martin Smith, 12651 S. 69th ave., Palos Heights, who died September 17, left a personal estate of \$10,000, according to a petition to admit his will to probate filed Monday in the Probate court.

Named as executors of the estate are his sons, Martin A. Smith, Mokena, and Alex Smith, Plainfield.

Named with them as heirs are two other sons, Edward Smith, Lemont, and Walter Smith, who lived with his father, and two daughters, Mrs. Marie Muth, Aurora and Mrs. Elizabeth Kopp, 728 S. Wisconsin, Villa Park.

Defer Action on Increase In City Cigarette Tax

(CNS) Proposals of Mayor Kennelly's revenue commission for increases in the state sales tax and a city cigarette tax got a strong going-over by a City Council finance sub-committee January 7.

The aldermen aren't sure how their constituents feel about forking over more money, so action

was postponed until January 15 to give the city fathers time to think it over.

The revenue commission report calls for a half-cent increase in the sales tax, the hike to be turned over to municipal governments a penny tax increase on each pack of cigarettes, and a five per cent hotel tax on out-of-town visitors. It's claimed that the taxes, if first okayed by the state legislature, will increase Chicago's income by about \$23,000,000.

Boosters Finance Trip For JTHS Orchestra Members

The Orchestra Boosters of the Joliet Township high school will send the members of the orchestra to Chicago January 23, to attend the annual concert in Orchestra Hall, given by the Greater Chicago Youth Orchestra. Some forty-odd members will attend, together with Peter Labella, the director, and several parents as chaperones.

They will go on a school bus and on the way home will stop for a midnight supper at a way-side restaurant as guests of the Boosters, of which Fred G. Lehmann of Mokena is president.

Members of the orchestra from Mokena include: Cecil Ambuehl, Henry Clark, Charlotte Gilmore, Jerry Lehman and Bruce Scarth.

WASHINGTON AND "SMALL BUSINESS"

Washington governmental activity is at a snail's pace in this 'tween administrations interim. But there has been no slacking off on spending money.

There's a "hush before the storm" atmosphere. New Administration is pledged to immediate cuts in spending; in taxes.

The question is: "Can Eisenhower deliver?"

Viewing terrific pressures C. W. Harder now building, many say no. Obviously, biggest immediate cuts can be made in European aid programs which have already cost taxpayers over \$35 billion.

For example, on a typical day MSA gives another \$13 million.

The breakdown is interesting. Almost \$1 million went to France to pay her for ocean transportation of free goods. Another \$1 million went to Communist Tito's Yugoslavia for U. S. coal and coke. There are vast coal resources in much closer England and France, but as long as the U. S. will give commodities to European nations, they are not compelled to work out trade agreements themselves.

Britain also received \$6 million in American petroleum.

Britain had big supply of Iranian oil until British oil monopoly and Iran disagreed on royalty terms.

Independents are anxious to trade in Iranian oil but fear British - government - backed threats of British oil monopoly.

Little wonder U. S. labor feels right to use boycott when world © National Federation of Independent Business

LINCOLNWOOD HILLS

Toni Ritt and Marge Berls
Tel. New Lenox 5321

Hi! friends and neighbors of Lincolnwood Hills. Your new correspondents are, as of now, Anne Halik and Mrs. Dorothy Owen. So long Marge and Toni, you did a fine job of starting this column and we hate to see you give it up. All news and items of local interest will be gratefully accepted. You may contact Mrs. Halik at New Lenox 5324 or Mrs. Owen at New Lenox 5233.

We would like all the residents of Lincolnwood Hills to be on the look out for news in this column of Mother's March for the polio fund to be held January 29.

We have not heard of any casualties caused by the icy hills of Lincolnwood except the minor scrapes and bumps incurred while sled riding on West Circle drive. Also that of Howard West when his car slid into a culvert damaging the front end. No one was injured.

Cheryl, daughter of Mr. and Mrs. William Stoner, is still confined to her home, after her bout with chicken-pox. Hurry up Cheryl and get well and get in on some of this sleigh riding.

Mrs. Rose Salvato is recuperating at home from severe burns on her hands. The accident happened when she spilled hot grease, while preparing a holiday specialty.

Dan Cupid has paid a visit to Lincolnwood Hills and struck the heart strings of Peter W. Gertsman, brother of Mrs. Ernie Spannhake, who is engaged to be married. His fiancée is still in Berlin, Germany, awaiting passage to this country. They plan to marry shortly after she arrives.

We hear that our subdivision will begin growing again in spring. Our local contractor, Bob Fredin is planning on building at least 20 new homes. Some have already been sold, and the rest are still to be sold. Not to mention a few under construction at the moment.

May we compliment the bus driver of the St. Jude's school bus, on his faithful and efficient service. The icy roads did not hinder his regular trips.

If you people of our community would like to see this column continued, will you help us to make it grow by sending us your news.

From where I sit... by Joe Marsh

Pretty "Foxy" Terrier

Talking about dogs the other night—and Sandy Johnson topped everything off with a tall story about his fox terrier, "Boscum."

According to Sandy, "Comes bird season and that dog won't stir if I take down my rifle. Same if it's deer season and I go for my shotgun—he won't move, but he's scratching at the door if I so much as look at my rifle!"

One day, Sandy decided to fool him. He took down both his shotgun and his rifle—and swish, Boscum was on his way! So Sandy put the guns back and took out

his fishing rod. He went outside and there was Boscum—digging like crazy for worms!

From where I sit, a dog that can outguess humans is as rare as a human that can outguess other humans. For instance, I like a glass of beer with lunch but I wouldn't think of pouring you one without first asking. Everybody has preferences—and it's finding out what they are and respecting them that keeps freedom from "going to the dogs."

The New Lenox Methodist Dramatic club reports fine progress rehearsing "The Late Christopher Bean" to be presented February 5, 6, 7 in the Haven school. When the village doctor finds that he has failed to appreciate not only the quality but also the value of "daubings" of one of his penniless, deceased patients who left only his paintings behind to pay the doctor bill, the doctor fumbles and desperately to cover up and cash in. His attempts to manipulate his greedy wife, romantic daughter, shrewd art critics, make this play one that appeals to everyone.

Three Proposals for Recouping Lost County Income List'd

CNS—The Civic Federation has advocated three concrete proposals for recouping lost income to the county. The first was elimination of township collectors.

The statement said:

"Commissions approximating \$1,080,000 were paid the 30 township collectors on 1951 tax collections. We believe the service they render could be performed at a fraction of that cost by the county treasurer. We again suggest that you recommend legislation which will give Cook county citizens the opportunity to vote upon the question of the elimination of township collectors, an opportunity now denied only to the voters of this county."

A second suggestion was for a revised system whereby the county could collect on 200,000 parcels of real estate (about 20 per cent of all parcels in the county) which remain chronically tax delinquent. The statement said that "efforts at solution of this problem in the past have bogged down because of indifference, opposition and technicalities."

The Federation suggested that a listing of the nature of all delinquent parcels be made so as to avoid the annual expense of about \$1,000,000 or fumbling with non-productive tax bills and the unrealistic practice of appropriating against fictitious values.

The third suggestion was a drive to collect personal property taxes, 62.6 per cent of which remained delinquent in 1951. If the personal property tax collections matched that of real estate, percentage wise, an additional \$15,000,000 revenue would have been realized.

The following is a list of the number and per cents of delinquent real estate and personal property items in the Biemen.
